

2001 Small Business Profile: MASSACHUSETTS

That the small business sector is as an economic engine indispensable to Massachusetts's well being is apparent in the *2001 Small Business Profile*, compiled by the U.S. Small Business Administration's Office of Advocacy. The results in this report show that small businesses are job generators and innovators, and that they represent an array of opportunities to the diverse spectrum of individuals in their communities.

Number of Businesses. In 2000, the number of employer businesses increased by 1.8 percent, and it is estimated that the number of self-employed individuals decreased by 8.5 percent. There were 167,740 employer businesses, and nearly 98.0 percent were small (with fewer than 500 employees) in 2000. Self-employed persons were estimated at 206,793 in 2000. (Sources: U.S. Dept. of Labor, Employment and Training Administration; U.S. Dept. of Commerce, Bureau of the Census; U.S. Dept. of Labor, Bureau of Labor Statistics)

Women-Owned Businesses. Women-owned businesses generated \$16.8 billion in revenues, employed 155,191 workers, and constituted 142,700 firms or 26.6 percent of all firms in 1997. The data on women-owned firms are not comparable between 1992 and 1997. (Sources: U.S. Dept. of Labor, Bureau of Labor Statistics, U.S. Dept. of Commerce, Bureau of the Census)

Minority-Owned Businesses. According to the latest (1997) Census data, a total of 39,000 minority-owned businesses represented 7.3 percent of the businesses in the state and generated \$7.0 billion in revenues. Of these, 7,600 were employer businesses employing a total of 53,243 workers. There were 12,700 Hispanic-owned firms; 11,800 Black-owned businesses; 12,700 Asian and Pacific Islander-owned firms; and 3,400 American Indian and Alaskan Native-owned businesses in 1997. (The data on minority-owned firms are not comparable between 1992 and 1997.) Data may not sum to the total because an owner may be a member of more than one minority group. (Source: U.S. Dept. of Commerce, Bureau of the Census)

Business Turnover. There were 13.8 percent or 18,640 more new employer firms in 2000 than in 1999. Business bankruptcies totaled 393 in 2000, a decrease of 30.6 percent since 1999, while business terminations amounted to 18,164, a decrease of 7.6 percent from 1999. (Sources: U.S. Dept. of Labor, Employment and Training Administration; Administrative Office of the U.S. Courts; U.S. Dept. of Commerce, Bureau of the Census)

Employment. Small business employment represented 49.8 percent of the state's total employment and firms numbered 137,989 in 1998. Small businesses employed 1,456,819 of the state's 2,924,913 total non-farm private sector workers (Table 1). (Source: U.S. Dept. of Commerce, Bureau of the Census, Statistics of U.S. Businesses)

Small Business Income. The non-farm proprietors' share of small business income totaled \$17.5 billion—an increase of 8.6 percent from \$16.1 billion in 1999. (Source: U.S. Dept. of Commerce)

Finance. Small businesses often rely upon local bank services, and the number of banks within the state has decreased over the last five years. The Office of Advocacy has published banking studies identifying banks within the state that are small-business-friendly. (See Table 2 for the number of banks by asset size.) Small businesses seeking loans should also consider lenders that participate in the SBA's preferred or certified loan programs; for a list of these lenders, call the Small Business Answer Desk at (800) 827-5722.
